Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Summary

On December 18, 2006, the Applicant filed a Pre-Appeal Brief Request for Review. On February 15, 2007, the panel decision was sent to the Applicant reopening prosecution. A non-final action follows.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-8 are rejected under 35 U.S.C. 102(b) as being anticipated by French.

French discloses a method and corresponding computer medium for hedging comprising compensatory ratio hedging, determining a plurality of periods of time making up a life of a swap; and hedging an amount of a bond by said swap, said bond having a different maturity from said swap, wherein said amount of said bond hedged by said swap varies during the life of said swap to change similarly said swap mark-to-market value to said bond mark-to-market value by varying the ratio of said bond being said-hedged to said swap in each determined period of time to compensate for differences in said swap mark-to-market value and said bond mark-to-market value (p.2-5); an interest rate change has a similar dollar impact on said swap mark-to-market value and said bond mark-to-market value (p.2-5); maturity of said swap and said bond are closely matched (p.2-5); a lesser said amount of said bond is said hedged by said

Art Unit: 3691

swap when said bond maturity is longer (p.2-5); and ratio of said bond being said hedged to said swap varies to maintain similar amounts of dollar value volatility as the maturity ratio of said bond to said swap changes (p.2-5).

Although the Examiner has pointed out particular references contained in the prior art(s) of record in the body of this action, the specified citations are merely representative of the teachings in the art as applied to the specific limitations within the individual claim. Since other passages and figures may apply to the claimed invention as well, it is respectfully requested that the applicant, in preparing the response, to consider fully the entire references as potentially teaching all of the claimed invention, as well as the context of the passage as taught by the prior arts or disclosed by the Examiner.

Response to Arguments

Applicant's arguments with respect to claims 1-8 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Lalita M. Hamilton whose telephone number is (571) 272-6743. The examiner can normally be reached on Tuesday-Thursday (6:30-2:30).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Kalinowski Alexander can be reached on (571) 272-6771. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
